Norwin S. and Elizabeth N. BEAN FOUNDATION

Annual Report 2014

About the Bean Foundation

History

Norwin Sherwood Bean was born in Manchester, New Hampshire in 1873 and graduated from the Massachusetts Institute of Technology with a degree in electrical engineering. He served as Treasurer and Chief Executive Officer of Manchester Savings Bank and was a prominent business and civic leader. His charitable activities included the Manchester Community Chest, Family Service Society, the Institute of Arts and Science, and the Currier Gallery.

Elizabeth Nichols Bean was born in Amherst, New Hampshire and was a member of the Amherst Congregational Church throughout her life. She was active in many charitable organizations, including the Amherst Visiting Nurse Association and Amherst Historical Society. The Bean Foundation began operations upon her death in 1967.

Governance

The Bean Foundation is governed by two Senior Trustees who serve fifteen-year terms and three Term Trustees appointed for three-year terms. The Board of Trustees makes the final decision on all grant applications. It also oversees the Foundation's investment portfolio, currently managed by Goldman, Sachs & Co.

2014 Grants

The Norwin S. and Elizabeth N. Bean Foundation awards grants to nonprofit organizations and public agencies that benefit the communities of Manchester and Amherst, New Hampshire. In 2014, grants were awarded in all six eligible categories: arts and humanities, education, environment, health, human services, and public benefit. Forty-one applications were submitted requesting a total of \$738,459, and twenty-nine applications were funded for a total of \$481,902. Three requests benefited the residents of Amherst, five benefited both Amherst and Manchester, and twenty-one were granted to nonprofits whose proposals targeted the residents of Manchester.

Two education mini-grants were awarded to teachers in Manchester public schools for a total of \$1,000 through the Foundation's Educational Enhancement Fund. The fund is intended to support creative projects that build upon or expand classroom curriculum, offer new opportunities to students through co-curricular activities, or address issues of health and wellness in the school setting. In 2014, Bean Foundation Trustees increased the amount that can be awarded to one teacher from \$500 in one year to \$750. In 2014, one Educational Enhancement grant was presented to the kindergarten through second grades teachers and the second to the third through fifth grade teachers at Northwest Elementary School so that a school-wide program titled Character Counts could be carried out with all students under the guidance of the health teacher.

With \$230,816 awarded in human services, the Foundation funded numerous projects which met basic needs. Among them were grants to St. Joseph's Community Services to support the Manchester and Amherst Meals on Wheels Program, New Hampshire Catholic Charities to provide comprehensive immigration-related legal services to 60 to 80 immigrant victims of domestic violence and sexual assault, CASA to initiate a training program for volunteers to support youths who are aging out of the foster care system, More Than Wheels to address transportation barriers in the delivery of home care services, and the Harry Gregg Foundation to provide products or services to individuals with disabilities to enhance their quality of life. In the area of basic needs in education, Learn to Read at the Manchester Public Library was funded to support one-on-one tutoring to adults in reading, writing, and basic math skills at no cost to the students. In health care, the Dental Lifeline Network Donated Dental Services for NH program received a grant to provide free dental care to 25 elderly or disabled Manchester residents who are unable to pay.

Five grants were directed at the needs of Manchester's immigrants and refugees. In addition to the work of NH Catholic Charities, mentioned above, the Holy Cross Family Learning Center, Inti Academy, and Women for Women Coalition received funding toward English Language classes, after school academic support and supervision, and a youth exercise and nutrition program. The Bhutanese Community of NH (BCNH) used grant funds to develop a

strategic plan which by early 2015 was providing beneficial guidance to the organization and earning it regional and national recognition for its value to the organization. While some organizations which support new Americans continue to struggle to survive, others such as BCNH have developed a long range vision and are collaborating with others to meet broad community needs.

The Bean Foundation provided support to two after school youth programs in 2014. It awarded a grant to INTI Soccer to support its academic program and Girls at Work to offer after school carpentry workshops to at-risk girls in collaboration with Big Brothers Big Sisters. In the category of environment, a grant was presented to the Audubon Society of NH toward acquisition of new supplies and equipment for the Massabesic Audubon Center's environmental education programs, and the Amherst Land Trust received seed funding to establish an annual road race fundraiser.

Indicative of the Trustees' strong commitment to education, three projects of the Manchester School District were funded, each supporting a different area of need. Ready for Success was awarded support for its intensive language and literacy summer program for kindergarten and first grade students who test as likely to have difficulty learning to read. The Foundation funded the national SAM Innovation project in two schools, supporting a professional development process aimed at changing a principal's focus from school management tasks to instructional leadership. Lastly, the Trustees approved a \$25,000 grant to the STEAM Ahead program at Manchester High School West and offered an additional \$25,000 challenge grant for businesses and individual donors, which totaled \$75,000 to STEAM Ahead when completed in 2014.
